

# Classification ESSEC des revues en management

## *ESSEC Ranking of Journals*

2017

(Par groupe / *By group*)

## DEFINITIONS DES GROUPES (*English below*)

### Revues académiques

#### ■ Groupe 0+ (leading journals)

Un petit nombre de revues scientifiques unanimement reconnues au plan international comme étant les meilleures de la discipline. Il s'agit de toute évidence de revues généralistes, de grande tradition et à grand impact académique.

#### ■ Groupe 0 (excellent)

Un petit nombre de revues scientifiques d'excellence, dont le niveau s'approche des revues leaders de la discipline. La majorité des experts s'accordent sur leur grande qualité. Il s'agit essentiellement de revues generalists.

#### ■ Groupe 1 (very good)

Revues scientifiques de très bon niveau, reconnues et diffusées au plan international, sans toutefois faire partie des toutes premières revues de la discipline. On y trouve des revues généralistes et spécialisées.

#### ■ Groupe 2 (good)

Revues scientifiques dont la qualité des articles est généralement inférieure à celle des revues du groupe 1. Il s'agit des revues à circulation nationale ou des revues internationales de moindre notoriété.

#### ■ Groupe 3 (narrow)

Revues scientifiques à aire de diffusion très étroite ou à faible notoriété.

### Revues professionnelles (P)

#### ■ Groupe 4P

Revues contenant des articles destinés essentiellement à un public professionnel.

## GROUPS DEFINED

### Academic journals

#### ■ Group 0+ (leading journals)

*A small number of scientific journals unanimously acknowledged internationally as the best in the field. Naturally these are generalist journals with a longstanding tradition and high academic impact.*

#### ■ Group 0 (excellent)

*A small number of scientific journals offering excellence on a level close to the top journals in the field. Expert opinion is generally in agreement as to their very high quality. They are essentially generalist journals.*

#### ■ Group 1 (very good)

*High-level scientific journals of international reputation and circulation, but not among the very top journals in their field. They comprise both generalist and more specialist journals.*

#### ■ Group 2 (good)

*Scientific journals publishing papers of a generally lower quality than Group 1 journals; generally national-circulation journals, or international journals of lesser reputation.*

#### ■ Group 3 (narrow)

*Scientific journals with a very narrow circulation or low profile.*

### Professional journals (P)

#### ■ Group 4P

*Professional journals containing papers intended for professional experts or papers essentially intended for wide readership of professionals in the field.*
